of September 21, 2011. Updated EPDs
can be viewed at www.angus.org.

We would like to invite everyone to our March 30, 2013 female sale. We are very proud of this set of cows. The base of this herd is strong with a sound pedigree. We have several cow families working on their 12th generation in production. Bulls like Southern Trend, Traveler 212 and Gaucho 715G built a sound maternal base for this herd followed by Midland 0502, a high performance and outstanding carcass sire. Then came the next generation that was two 7/8 brothers, Harris 004 Traveler 702 co-owned with Harris Angus Farm, (You will love his daughters. There are several in this sale.) and Claybrook 004 Traveler 8146 that we co-own with Allen Angus (His first daughters are awesome cows.). The Lot 2 female is a daughter of their dam's sister.

This set of cattle will show you our new genetic lines: "Black Cedar, Really Windy and Image Maker". We feel these genetic lines are the real world genetics that can perform in our real world. We are very proud of the way these cattle are performing. We have not put any extra feed in these sale cattle. They have been treated just like the rest of the herd.

The Image Maker line in our herd has daughters nursing their second set of calves; they are impressive maternal females. First, we utilized the calving ease sire, Rockin' Horse Tailor Made 456, that produced a nice set of daughters for us and a great set of bulls for our bull customers. We picked Claybrook Tailor Made 8109 to be the son for us to keep. He is a big, stout, massive herd sire that is out of both a Pathfinder dam and granddam. Tailor Made 8109 is proving to be one of the best sires ever used here at Claybrook. More recently, for the Image Maker line, we are using the rock solid, Benfield Substance 8506, that is backed by a strong cow family from the Benfield herd.

The Black Cedar line was brought into the herd for his balance of traits, soundness and overall quality. We have used the foundation sire, Cole Creek Black Cedar 46P, heavily for the last two years. Now we have brought in his sons to help intensify this bloodline. Cole Creek Cedar Ridge 1V is a great calving ease sire that has lots of muscle. The biggest impact is going to come from our two home-raised sons. Claybrook Black Cedar 0155 is a powerful young sire that is out of a growth and maternal cow, Harris Bluebird 514. Claybrook Black Cedar 1159 is an eye-appealing, young bull that recorded one of the highest ultrasound marbling numbers ever for us, but to add to his power is his great dam Claybrook Erianna 397 that is also the dam of another herd sire Claybrook 004 Traveler 8146. The Black Cedar has a bright future here at Claybrook.

The Really Windy line is another set of new genetics that we are adding. Our first calves hit the ground last fall with one of the best being offered as Lot 1. We feel these cattle will keep adding to the soundness and quality of the herd. V D A R Really Windy 4097 is the bull that we selected to impact this genetic line in our herd. We are very proud to announce that Engelberg Angus and Claybrook have partnered up on the purchase of our new herd sire V D A R Really Windy 7082, a Windy 4097 son that is out of a Black Cedar daughter. We hope to have him here for the sale.

During the past year, Claybrook Farms new venture, Claybrook Beef Company, achieved new heights, supplying 23 great restaurants and two farmers' markets high quality beef. Retail sales have increased processing to almost 200 head within the Memphis area market alone. This has proven to be a very beneficial and rewarding enterprise for the farm.

Cole Creek Black Cedar 46P is a foundation Herd Sire we found in the Historic Herd Cole Creek Angus Ranch in Montana for his unique genetics for total performance.

Cole Creek Black Cedar 46P, is a deep ribbed, practical low birth, strong topped Quantum bred bull that has earned rave reviews as a real world cow maker in the rugged Cole Creek Angus Ranch herd in Montana that stresses functional, maternal performance. His daughters excel in body volume, udder quality, fertility, and natural thickness. We are basing our breeding around this great sire. We feel he can impact our herd with real world cattle for years to come. We have been using him heavy for 2 years and are still using him and four of his sons heavier than any bloodline ever here at Claybrook.

A double bred Miss Wix. It does not get much better. Her dam, Miss Wix 2114 is flush sister to the Harris Miss Wix 170. 170 is the grandam of our good two year old heifer that we sold in the West Tennessee Sale. Bred to Benfield Substance 8506 on 12/25/12 then pasture exposed to Claybrook Black Cedar 1159 after 1/20/13.

A powerful cow here that is sired by the great New Design 3173, herd sire for Carl Thornton who has used three sons of Blackcap 1159, and Claybrook. The power of this bull comes from his dam, Claybrook 9107 Blackcap 1159, one of greatest ever at Claybrook, a Pathfinder that has ratios for birth at 104, weaning at 108 and yearling at 105 on 8 calves. Selling pasture exposed to Claybrook Black Cedar 1159.

Co-owned with Engelberg Angus
 One of the feature bulls from the recent 2013 Van Dyke Sale that is low birth and out of one of their top first calf heifers. Sired by their great herd sire, V D A R Really Windy 4097, 7082 was one of the top wean-ing, yearling and marbling bulls in this calf crop. We are very proud to have purchased interest in this young bull.
